## Hall Building Work Update

We are delighted to share that, following a successful grant application, significant improvements have been made to our school hall over the Easter break.

The updated space now includes two dedicated storage rooms and two intervention rooms, which will be used throughout the school day to support small group work and learning interventions.

These spaces will also enhance our Club Rock provision, providing greater flexibility and opportunities for our pupils.

We would like to extend our sincere thanks to *Builder Girl* for completing the work so efficiently and professionally. We are also incredibly grateful to the members of staff who generously gave their time over the holidays to support the project. Your commitment and teamwork are truly appreciated.
